

FAST NO-MATCH STARS 8" and 12"
One of our local shops is making warrior quilts and we came up with this quick star to help with the project.
It uses fat quarters, and every fat quarter is cut exactly the same way,
so you can stack them if you like.
One fat quarter yields one star and one background,
so make half your fat quarters dark and half light.

## Cutting for 12" blocks:

Cut every fat quarter parallel to the selvage as follows.

## For the background:

1. Cut 1 strip $4^{\prime \prime} x$ length of fat quarter; subcut into 4 squares $4^{\prime \prime} \times 4^{\prime \prime}$.
2. Cut 1 strip $51 / 2^{\prime \prime} \times$ length of fat quarter; subcut into 4 rectangles 4 " $\times 5 \frac{1}{2} 2^{\prime \prime}$.

For the star:
3. Cut 1 strip 6" x length of fat quarter.

From one end, cut 1 square $51 / 2^{\prime \prime} \times 51 / 2^{\prime \prime}$.
4. From the remainder, cut 2 strips $3^{\prime \prime}$; subcut into 8 squares $3^{\prime \prime} \times 3^{\prime \prime}$.

If you want to add skinny lattices later, cut strips 1 ½" x length of fat quarter from the remaining fabric.

Block size: 12"

## Block Construction:

5. Align a $3^{\prime \prime}$ star square with a corner of a background rectangle (4" x $51 / 2$ "). Sew diagonally, stitching from corner to corner of the rectangle as shown. Be sure to sew the points to the long side of the rectangle.

6. Trim outer corner off, leaving a $1 / 4$ " seam allowance, and press the remaining corner triangle out.

7. Repeat steps \#5 and \#6 on a corner adjacent to the one you just sewed.

8. Repeat steps \#5 through \#7 with 3 more of the same background rectangles.
9. Use the remaining 4 background squares and the $5 \frac{1 / 2 " \prime}{\prime \prime}$ star square to construct the star block as a 9 -patch, following the pressing arrows.

## Quilt Construction:

The top may be sewn together block to block. The blocks have been pressed so that the side seam allowances will butt. If yours don't, rotate one of them $90^{\circ}$

If you cut enough for 2 quilts, you can have all your backgrounds light on one quilt and dark on the other. In either case the top looks surprisingly good with a $1^{\prime \prime}$ lattice. Use the leftovers to cut lattice pieces $11 / 2^{\prime \prime} \times 121 / 2^{\prime \prime}$ and fail-safe squares $11 / 2^{\prime \prime} \times 1 \frac{1 / 2 " \text { ", or as a pieced border. }}{\text {. }}$

## Cutting for 8" blocks:

Block size: 8"
Star size: 7"
You will need 2 pieces of fabric, each about $10^{\prime \prime} \times 18^{\prime \prime}$. You will make 2 blocks. One block will use fabric $A$ for the star and fabric $B$ for the background. The other block will use fabric $B$ for the star and fabric $A$ for the background.

1. Layer the fabrics carefully and cut 3 strips parallel to the long side:
1 @ 4", 1 @ $23 / 4^{\prime \prime}$ and 1 @ 2 1/4".
a. From the $4^{\prime \prime}$ strip, cut 1 square $4^{\prime \prime}$ and 4 rectangles 4 " $\times 2$ 3/4".
b. From the $23^{\prime \prime}$ " strip, cut 4 squares $23 / 4^{\prime \prime}$.
c. Then cut 1 square $21 / 4^{\prime \prime}$.
d. From the $2 \frac{1}{4} 4^{\prime \prime}$ strip, cut 7 squares $21 / 4^{\prime \prime}$.

2. Sort the pieces into star groups and background groups. The star group consists of the 4 " square and 8 squares $21 / 4^{\prime \prime}$. The background group consists of 4 squares $23 / 4^{\prime \prime}$ and 4 rectangles $4^{\prime \prime} \times 2{ }^{3 / 4^{\prime \prime}}$.
3. To assemble the stars refer to the original directions for $12^{\prime \prime}$ Fast No-Match Stars. NOTE: Don't forget that the sizes for the original are different.
