Appliqué elementz.

Our laser cut appliqué pieces are precision cut appliqué shapes with Steam-A-Seam 2* fusible webbing already applied on the back.

Just lay out your background fabric, tee shirt, tote or pillow,
and you are ready to start the appliqué process.
Simply peel protective paper, place the pre-cut shapes in the desired position
and press shapes in place with your hand.
Now your pieces will be temporarily held in place until the final pressing.
Once satisfied with your placement,
press the shapes with an iron
and the design will be permanently bonded to your project.

Steam-A-Seam 2 is a fusible webbing that is not permanent until pressed with an iron -
Pieces can be temporarily applied and re-positioned as necessary!*

NOTE: All sizes are approximate.

**All applique is also available as a PATTERN ONLY unless otherwise noted.*
